A Software Developer with practical experience in frontend development and web applications. Holding a Bachelor's degree in Computer Science from St. Paul's University, Kenya, and internships at World Agroforestry and Lake Basin Development Authority, I possess a strong foundation in HTML, CSS, JavaScript, and SQL. Skilled in frontend frameworks like ReactJS and version control with Git/GitHub. Committed to continuous learning and collaboration in a team environment.

WORK EXPERIENCE

Software Engineer Apprentice · 09/2022 - 12/2023
Alx Africa

- I am an apprentice here learning and building full-stack projects.
- Constructed a full-stack clone app for AirBnB, achieving 70% of its functionalities, great learning and building process.
- Crafted and hosted a visually appealing personal portfolio website, driving an increase in client inquiries and showcasing technical skills.

Software Developer Intern · 02/2022 - 04/2022
World Agroforestry

- Worked with JavaScript frameworks; Svelte and React
- Native to build native mobile applications. I learned version control and proper code management skills with Git/GitHub and also grasped the art of documentation utilizing
- Created a simple mobile app UI

Tech Support Intern · 01/2022 - 02/2022
Lake Basin Development Authority

- Developed expertise in hardware and software troubleshooting, providing prompt and efficient support to improve overall team productivity.
